TRAINING AND PLACEMENT CELL

"Corporate associates are an integral part of meaningful education. The students need to familiarise themselves with knowledge, risks, practices and potential of each industry, before they step out in the corporate world. Academia and Industry are incomplete without each other. They are the either ends of the spectrum and can gain much from synergy between them. MBA professionals are central part of the supply chain to businesses, a supply chain that has the capability to support business health and therefore economic prosperity. A thriving knowledge economy depends upon its institutions in three critical dimensions: the application and exploitation of research capability, the enterprise and entrepreneurial culture that is developed amongst its students and the applicability of the knowledge and skills of all its graduates."
